

SAPIO™

Link.

Using tech to combat Isolation

What is it?

Sapio Link is an easy to use medical alert system that connects you to the Sapio Team, 24/7.

All you need to do is press your pendant worn on your wrist or neck and a trained care specialist will make sure you get the help you need as fast as possible, even if you can't speak.

Sapio Link can greatly reduce the risk involved in self-isolation for more than 4 million Australians over the age of 65. With help being a press of a button away, Sapio Link provides families with peace of mind and reassurance at times they need it most.

Applications

Sapio Link works in a range of environments that holds the health and safety of individuals in high regard. Whether it be monitoring grandma at home gardening or the safety of an entire retirement home, Sapio Link provides people with the support they need, when they need it.

Potential applications include:

Hospitals

Aged Care Facilities

Residential Homes

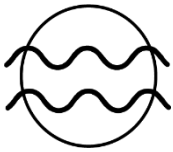

Benefits

Help is only a push of a button away from anywhere in the home

Uniquely connected to Sapio's 24/7 monitoring team

Lifeproof pendant that can be worn in the bath, shower or pool

Comfortable and unobtrusive design

Peace of mind and improved quality of life

Swift and immediate emergency response systems

Who are We?

We're Sapio.

An Australian company bringing innovative technology and human intelligence together to keep you secure.

By teaming up sharp human minds with the world's best technology partners, we can get ahead of threats and problems.

And if a solution doesn't exist? We'll build it. Let your business evolve – backed by human intelligence.
